EXPERIENCE

Nike, Summa Linguae Technologies

Data Analyst

Beaverton, OR

Mar 2023 – Oct 2024

- Established the data and analytics infrastructure for Nike's Globalization department, enhancing operational efficiency through strategic roadmaps that automated key processes and improved workflow management.
- Developed documentation for process and data workflows, streamlining operations across global teams and facilitating knowledge sharing.
- Conducted requirements gathering and performed exploratory data analysis on large datasets, uncovering trends and insights that supported critical business initiatives and improved decision-making.
- Designed and managed financial models for budgeting, optimizing resource allocation and financial planning.
- Collaborated with engineering teams in a remote environment to ensure data quality and integration, fostering a culture of data-driven decision-making and implementing continuous improvement initiatives.

Cura CS

Manager of Analytics

Portland, OR

Jul 2016 – Dec 2019

- Established the Data and Analytics department, implementing policies and procedures for data governance and integrity, and built a high-performing analytics team.
- Led the successful deployment of an ERP system by conducting thorough data cleanup and restructuring, ensuring seamless integration and improving data accuracy.
- Developed custom SQL solutions and created dynamic real-time dashboards tailored for C-suite executives, delivering critical insights that improved sales forecasting, operations efficiency, and inventory management.
- Innovated and maintained advanced analytical tools, including data tracking mechanisms and automated reporting systems, facilitating data-driven decision-making across the organization.

The Standard Insurance Company

Financial Analyst

Portland, OR

May 2015 – Jul 2016

- Oversaw financial liabilities and presented monthly and quarterly results to senior management, which enhanced financial oversight and decision-making.
- Supported annual budgeting and forecasting by gathering, analyzing, and presenting financial data on headcount, compensation, and operational expenses, which delivered timely projections for strategic planning.

Intuit

Senior Credit Analyst

Woodland Hills, CA

Mar 2013 – May 2015

- Established the Credit Risk Analysis department, led and trained a team in evaluating high-risk accounts and developed standardized frameworks for credit risk assessments.
- Conducted financial risk assessments for high-risk merchant accounts, significantly reducing potential losses while collaborating with cross-functional teams to enhance risk mitigation practices.
